

# Interview Report

## **Conducted By:**

Conducted by: Maryam Rajput, Iqra, Lareb, Fiza

Designation: BSIT Students

Interviewee: Prof. Dr. Muhammad Altaf

Designation: Dean, Faculty of Information Technology

Date: April 2025

Location: Sindh Agriculture University, Tandojam

## Interview Summary

Prof. Dr. Muhammad Altaf welcomed us warmly and appreciated the students' interest in engaging with leadership. During the session, we discussed several aspects related to the educational system, departmental activities, faculty structure, and student development. Key highlights of the conversation are mentioned below:

# Vision For IT Faculty:

Dr. Altaf emphasized the importance of adapting modern technologies in teaching. He aims to introduce more practical labs and certifications for students to become industry-ready.

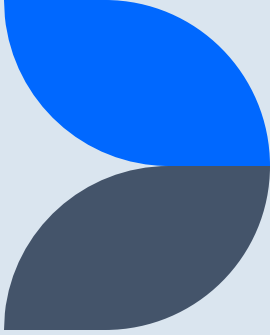

# Research Opportunities:

The Dean shared that research culture is growing, and students are encouraged to participate in real-world projects. Funding opportunities for final year projects are also being considered.

# **Study Engagement:**

He stressed the importance of seminars, tech fairs, and hackathons to enhance student creativity and confidence.

# Speaking engagement metrics

Faculty Development: Continuous training of faculty members is being ensured to maintain the quality of education.

Infrastructure Growth: Dr. Altaf mentioned upcoming plans for improving lab facilities, internet services, and smart classroom environments.

## Conclusion:

The interview proved to be highly informative and motivational. Prof. Dr. Altafs vision reflects hope and strength for a better academic future. As students, we felt encouraged and inspired to contribute positively to our universitys growth.

# Thank you
